Use of Heat Away From Premises

It is a condition precedent to liability that in respect of the use away from the Insured's premises of electric oxy-acetylene or similar welding or cutting or grinding equipment blow lamps or blow torches the undernoted precautions shall be complied with

1. before starting such work
 - a) a person (the "Responsible Person") shall be made responsible for fire safety and for ensuring that reasonable precautions to prevent Damage are taken
 - b) all persons shall be made aware of the location of the site's fire alarms and fire-fighting equipment
 - c) the Responsible Person shall examine all property within four metres from where the heat is being applied and where possible remove all moveable combustible materials or otherwise cover and protect combustible materials which cannot be removed by overlapping sheets or screens of non-combustible material

- d) if work is to be carried out overhead the area beneath must be cleaned and moveable combustible material removed
 - e) before heat is applied to material built into or projecting through one side of a wall or partition an inspection shall be made of the other side of the wall or partition to ensure that no combustible materials are in danger of ignition by direct or conducted heat
2. during the course of such work
- a) other than for the use of blowlamps or blowtorches in private dwelling houses, a person who is trained in the use of fire-extinguishing appliances shall work alongside the operator of the equipment to look out for an outbreak of fire
 - b) there shall be available for immediate use near to the work
 - i) a nine litre capacity fire extinguisher or other equivalent means of fire extinguishment of a type suitable for the combustible material and the premises
 - ii) if available and if appropriate approval has been obtained, a hose connected to the nearest hydrant with water turned on and controllable at the nozzle of the hose
 - c) blow lamps or blow torches shall be lighted as short a time as possible before use, extinguished immediately after use and while lighted shall not be left unattended
 - d) gas cylinders not required for use shall be kept at least four metres from where the heat is being applied
3. after ceasing such work a thorough examination must be made of the area in which work has been undertaken.

There is no height restriction applicable to this policy
